DICKINSON ROYAL SERIES OVER/UNDER

THE ROYAL SERIES offers everything serious shooters look for in a premium over/under beginning with premium grade Turkish walnut and a hand removable sidelock design with an intercepting safety sear and additional pin anchoring that make this gun superior to typical five-pin models.

The CNC-machined receiver is milled from a solid block of molybdenum chrome steel and finished with true bone charcoal case hardening that makes each gun an individual work of art. The receiver is accented with beautiful hand-engraved English scroll work. The finish, 24-lines-per-inch checkering of the premium Turkish walnut stock and final fitting are all hand done by skilled craftsmen.

The Royal Series doesn't just look great on display; it is ruggedly built for reliable long-term performance. It is available in 12-gauge or 20-gauge versions, and a range of barrel lengths including 24, 26, 28 and 30 inches.

EXUDE LIGHT

THE INNOVATIVE AND UNIQUE high-performance Exude Light is made to see at long distance. It collimates and focuses light generated by an LED without the use of reflectors and instead uses a patented system of photonic lenses to project a beam of focused light that's ideal for identifying predators in the night. It does not spill light or create hot or dark spots which means even the white light of an Exude doesn't cause animals to flare.

The new Exude OD25 runs on batteries and is compact and lightweight so it can be handheld or mounted to a rifle with the included adjustable mount. The OD40 is rechargeable, handheld or mountable and its larger beam throws at a distance double that of the OD25. The handheld OD50 is available in white or green light and made to stretch out to 400 yards.

FIOCCHI

FIOCCHI EXACTA AMMUNITION crushes targets in sporting clays, trap and five-stand all while delivering less felt recoil and a more consistent pattern. Loaded with high quality Fiocchi components, this ammunition is sure to deliver the performance and reliability required in competition. The famous Crushers and White Rinos come out of the ultra-exclusive Exacta line, which features optimally matched one-piece cushioned wads, the cleanest burning powders on the market propelling shot cups full of only target quality shot toward your targets, absolutely crushing them on impact. The best Exacta loads continue being offered in classic paper hulls for the most discerning shooters. Fiocchi of America's Exacta line has become the industry standard bearer to which all of the competition aspires to be.

WOOX

FOLLOWING THE SUCCESS OF the AX1, WOOX has continued its pursuit of developing the best quality outdoor gear with the new FORTE axe. Combining classical American and Italian axe designs, the WOOX FORTE is another great example of "old world" craftsmanship meeting the modern age of high-performance gear.

The American hickory handle adds strength and durability, while the anti-slip coating offers a superior grip in any condition. Each head on the FORTE axe is individually hammered into shape, hand finished and made of tempered carbon steel (c60/1060). With a length of 22 inches and a weight of only three pounds, the FORTE axe is easily packed into the backcountry for your next great adventure.

The WOOX FORTE axe is designed and made in both Italy and Hickory, North Carolina.
